VOL. XXXXIX: NO. 35 REDWOOD CITY, CAL., SATURDAY, DECEMBER 14, 1907. ESTABLISHED, 1859.

Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x100 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

Narrow Escape From Death

W. C. Lynn, butcher for Thomas Tuite, had a narrow escape from death at Fair Oaks Tuesday. He was driving across the track behind one train when another bound in the opposite direction struck and demolished his wagon and threw him clear of the wreckage. The horses tore loose and ran away and one of them has not yet been found. Residents in the vicinity corroborate the young man in his statement that no whistle was blown by the moving train.

Beyond a few bruises Mr. Lynn was uninjured.

Firemen at Banquet

The members of the fire department joined in a banquet in Odd Fellows'hall, Saturday night. Every member was present as well as several of the exempts and some invited guests After the supper, singing and music closed the evening, and the company separated, pleased with the reunion. It is proposed that these banquets be held annually, when the firemen can meet and talk over their affairs.

TOWN COUNCIL IN SESSION

Citizens Meet With City Trustees

CONFER ON BOND ISSUE

Roosevelt Avenue Residents Enter Protest---Arnold Hess Will Make Good

There was but a small representation of taxpayers at the public meeting in the Alhambra, Tuesday evening. Some of the most prominent citizens of town were present, but the majority of business men were noticeable by their absence. A. Kincaid called the meeting to order and Mr. Havey was requested to preside, after which Mr. Kincaid stated the reason for calling the meeting as being for the purpose of feeling the public pulse on the subject of issuing bonds for securing funds with which to erect a town hall and steel tanks and make other improvements in the water system. The matter was fully discussed by Messrs Cumberson, Chamberlain, Behrens, Walsh, Landscheit, Fowler, West Schaberg and others, all of whom admitted the great necessity of improvements to the water system but each seemed to doubt the advisability of asking for funds for a city hall at this time. Mr. Behrens thought that the views of the taxpayers could be ascertained in an economical manner by circulating postals among the voters asking them to return them with answers as to whether they favored one or both of the bonding propositions.

His plan was adopted by a rising vote, the chairman stating that he would appoint a committee to prepare the postals.

Protest From Roosevelt Avenue

There was an adjourned meeting of the Board of Town Trustees last Wednesday evening at which a map of Dingee Park was presented and filed with the clerk. All the streets were rejected so that no responsibility for their maintenance rests with the town. Application was made by A. Hess for payment for work done in grading and macadamizing Roosevelt avenue.

The following protest against the acceptance of the work was presented to the board:

To the Honorable Board of Trustees of the town of Redwood City, California, Gentlemen—We, the undersigned, residents and property holders along the line of Roosevelt avenue, in Redwood City, wish to call your attention to the following facts in connection with the street work now being done on said avenue.

First: We have measured the exact depth of the macadam, at intervals of 100 feet, along the crown of said roadway, for a distance of about 2000 feet from its intersection with the county road, and find that the depth of the macadam ranges from 4½ inches to 7 inches, and that a liberal estimate of the average depth of said macadam would be 6 inches.

Second: We found the depth of the macadam at the sides of the roadway, near the curb, to range from 2 inches to 3 inches; we did not measure the sides in as many places as we did the crown, but we think 3½ inches would be a very liberal estimate of the depth of the macadam on the side of the roadway, near the curb.

Third: We found that the contractor is using fine dust for about (a rough estimate) 50 per cent of the top layer of said macadam, while the contract calls for rock of not less than ¼ inch in diameter.

Fourth: We have found that the contractor has been too sparing in the use of water, much to the detriment of the work; also that in front of the residence of Mr. Conrad Bontz, where the sub-grade has been refilled, places where the loose adobe is three and four inches in depth, and that the contractor is now, (Dec. 2nd.) putting on the first layer of rock and then immediately covering the same with screenings without rolling or watering the first layer.

Sixth: We also find that if a retaining wall is not built at the intersection of the new roadway with the creek, which runs alongside the county road, that the first heavy rain will wash a good portion of the new road, in that vicinity, into said creek; we do not know whether this is the contractor's work or not, but we take this method of informing the Board of Trustees of the need of said retaining wall.

In conclusion, we therefore protest against the payment to the contractor, of any sum of money until he has complied, fully, with the terms of the contract.

Trusting that this matter may receive the immediate attention of your honorable body, the foregoing is respectfully submitted.

B. C. Byrd, R. Schellens, W. H. Kelso.

The matter was laid over until December 11, by which time the board will have made a complete inspection of the work and decide upon the manner in which it had been performed.

Hess Will Make Good

Wednesday night at a meeting of the board of town trustees, the work of A. Hess on Roosevelt avenue, referred to above, was accepted on condition that he give the roadway the required depth of macadam. His claim for macadamizing was then allowed.

Greater San Francisco

A. D. Walsh, president of the local Board of Trade, represented this city at the Merchant's Association banquet, Thursday night last at the Fairmont hotel, San Francisco. The leading citizens of the towns around the bay were present to voice their sentiments regarding the merging into a greater San Francisco of the territory of the four counties within a certain radius from the metropolis. Speaking in opposition to the scheme had about as much chance as a lone gum drop in a young ladies seminary, but they were not all backward in allowing the large number of shouting promoters to learn that it would not be plain sailing for them. John P. Irish spoke for Oakland and gave good practical reasons why the coalition would not be of benefit to that city, and Geo. C. Ross of this county gave the newspapers and promoters of San Francisco a good raking over the coals with a few unpalatcable truths, finally saying:

"Why should we join with San Francisco?" he asked "What inducements do you offer us? On the other hand the Citizen's Alliance and on the other hand the unwhipped mob"? We want none of you San Francisco until you clean yourself, morally, politically and thoroughly."

Four-Track System

The four track system down the peninsula is again being worked on, this time from the San Mateo end where superintendent of construction Lynch is clearing the Park property. Three tracks are now complete between San Mateo and below San Carlos and the fourth will occupy the private right-of-way paralleling them. This will give a four track system to San Jose with the exception of a small stretch between San Mateo and Burlingame. It is thought that two tracks will be used for freight and two for passenger trains.

In the "small," right over the hips?
That's the home of backache.
It's caused by sick kidneys.
That's why Doan's Kidney Pills cure it.
Redwood people endorse this. Read a case of it:

Wm. H. Crow, living at 12 Washington St., Redwood City, Cal., says: "One naturally becomes impressed with a remedy that fulfills all claims made for it. Doan's Kidney Pills were recommended to me, and deciding to give them a trial, I procured a box at P. A. Ryan's drug store. I took them according to directions, and the results were very satisfactory. I have used them on several occasions since and have always derived great benefit. Supervisor MacBain has completed the work of repairing the County road from Duff and Doyle's to the San Francisquito creek. It is without doubt the best thoroughfare on the Peninsula. He is engaged in continuing the repairing of the road through town to the crossing beyond the residence of Senator Felton. Crushed rock from E. B. & A. L. Stone Company's quarry is used. It is the very best material and makes excellent roads. Mr. MacBain has just completed gravelling three miles of road at Portola. The outhern Pacific Company has a number of surveyors engaged in surveying for a single track railroad from the Dumbarton bridge along the marsh to South San Francisco to connect with the four track system. There will be fifteen miles of track to lay and work will be pushed as rapidly as possible. The Company realizes that it could not get all its overland freght trains over the double track system from Redwood City to San Francisco as it would in all likelihood congest the passage of the passenger business. It is likely that all the freight will go over the single track while the passenger traffic will be handled over the double track from Redwood City.

A valuable dog owned by J. B. Coryell was run over and killed by the north bound train Tuesday evening. The canine was a ribbon winner, costing his admiring owner $100.

To Hold Important Meeting

The Peninsula Promotion League will hold an important meeting in Redwood City within the next two weeks. W. J. Martin of South San Francisco is president and C. N. Kirkbride of San Mateo secretary. The league will pay particular attention to the matter of commutation rates. A petition signed by all the commuters of the Peninsula asking the Southern Pacific Company to reduce its rates. A monthly ticket may be purchased from San Francisco to North Berkeley for $3 while from San Mateo to the city it is $6 and yet the difference in the distance is only four miles. The league believes that such discrimination should not exsist and will do all it can to have rates reduced all along the line from San Jose to Sunnyvale. The league takes in all the territory between South City and Sunnyvale including these two towns.

S. P. in Good Shape

Julius Kruttschnitt, director of the Harriman lines arrived in San Francisco Wednesday and in speaking of the growth of the Peninsula said:—

"The Southern Pacific is in good shape. All accumulations have been cleared up. There is no freight on the side tracks, and everything is moving forward regularly. One thing more than anything else has astonished me on this trip, and that is the development of the peninsula. There seems to be a continuation of villages all the way from South City to San Jose, and this building of small towns adjacent to San Francisco shows that the city must be prosperous.

Coburn Acquitted

Lorin Coburn who was charged with embezzlement was found not guilty by a jury in the superior court Wednesday. Many witnesses were examined. From the testimony it would seem that M. E. Glover, the complaining witness, rented the Sunnyside ranch from Coburn, near Pescadero and was to give as retnal one third of thecrop. It was harvested in Octoer 1905, and 1200 sacks of black oats were taken from the field by the landlord and stored in his warehouse at Pigeon Point. Coburn claimed the right to do this under the terms of the lease which gave him power to hold a portion or all the crop until all advances were settled for. Mrs. Glover held that there were no advances and therefore charged him with embezzlement. In as much as the grain was not disposed of and still remained in the warehouse the jury held that no crime was committed and thought it was a matter for the civil court to determine. Judge Stanton L. Carter of Fresno and E. F. Fitzpatrick of this city appeared for Coburn while District Attorney Bullock represented the people.

Death of Clara Crowe

The news of the death of Clara the next youngest daughter of Mr. and Mrs James Crowe came as a shock to the entire community last Tuesday morning. Few of the friends of the young lady knew of her illness and when her death became known the sympathy of all went out to the bereaved family. Miss Crowe had been ill but a few days but the cold which she had contracted a few weeks ago got such a hold upon her that it could not be shaken off and pneumoniadeveloping, the end came quickly.

The deceased was born in this city 28 years and six months ago. She grew to womanhood here, going through the local schools. After graduating from the Grammar School she turned her attention to music and gained a great degree of skill on the violin. She traveled considerably and where ever she was she took pains to perfect herself in her art, and during recent years when at home, she delighted Redwood audiences with selections and was always ready to help at any entertainments.

The funeral took place from her late residence Thursday morning. A short service was held at the house and the remains were conveyed to their last resting place at Cypress Lawn Cemetery by the 12:25 train. At the chapel there Rev. W. B. Clark, pastor of the local Episcopal church read the impressive services of his church. A last opportunity was given the many friends to gaze once more upon the face of the departed and there were no dry eyes present when the grief stricken parents looked for the last time at the one whom they were laying to rest.

The interment took place on one of the sloping hillsides and there with the birds singing about her and the beautiful flowers blosoming they left her. The floral offerings were of the most beautiful and were in such profusion that they entirely covered the mound which marks her resting place.

Besides her parents she leaves to mourn her four sisters, Mrs. Belle Wentworth of Oakland, Mrs. Max Brizard of San Francisco, and Miss Alice and Kittie Crowe and a brother, William Crowe, all of this city.

Ascore of witnesses were examined by tpaintiff defendants. Some evidence went to show the negligence of the company in not giving warning of the approcahing train that killed Tosi. However much of the testimony was conflicting. Harry E. Styles and Ray P. Saffold appeared for plaintiff and Frank J. McGowan and E. F. Fitzpatrick for the company.

All the evidence was in last evening and the case will be argued this morning. A verdict will most likely be rendered this afternoon.

Resolutions of Condolence

To the Chiefs of Metamora Tribe No. 24, Improved Order of Red Men:

Your special committee on memorial to our late brother, Sylvester Walker, Past Sachem, respectfully present the following;

The swift arrow of the dark hunter has again found lodgement in the breast of one of our beloved chiefs and we mourn his loss most deeply, he having been a charter member of the Tribe and always a loyal, earnest and active Red Man.

Brother Sylvester Walker was born in the reservation of New York, on the fifth sun of Plant Moon, G. S. D. 336,trailed to the reservation of California in G. S. D. 365, and to these hunting grounds in 377, common era 1868, affiliating with our Tribe in that great sun.

He was a good neighbor, a faithful friend, a genial companion, with a kindly disposition and a pleasant word for all, with these thoughts in our minds and so deeply impressed upon our hearts we feel assured that his spirit has been born safely across the dark river and is now with Kishe Manitou "where the council fire of love and glory burneth forever."

"There is no death; the stars go down,
To rise upon some fairer shore:
And right in Heaven's jeweled crown
They shine forever more."

As a token of the esteem in which the departed brother was held by the members of this Tribe we recommend that this tribute to his memory be duly spread upon the records and that the Council House be darkened for the space of thirty suns.

Done in Freedom, Friend and Charity.

Making Light of a Heavy Washday

This highly improved HORTON Washer will take all the strain of washday off your back and shoulders. While you turn it slowly and easily—without stooping—the HORTON high-speed gear does the work by forcing a hot blast of suds through and through the clothes under a pressure that takes all the dirt out quickly.

You will never realize how easy your washday might be until you have examined this new-idea washer. You will be surprised to find that no matter how slowly you turn the handle the working part of the washer is going at high speed and putting washday behind it almost as fast as you run the clothes through the wringer.

Will you investigate this for yourself? Just step into a good hardware or general store and ask to see the

HORTON
Galvanized Steel Rotary Washer

This is the washer with the GALVANIZED tub. It cannot leak or shrink, and keeps itself sweet and clean, because it does not absorb water. This tub is very light, and stronger than a wooden one. By unfastening a screw the wheel is quickly removed, and the whole washer is then as handy to carry as an ordinary tub.

GROWING NUT TREES.

In Planting Follow Nature's Own Way as Much as Possible.

The age at which any nut trees come into bearing depends on the care given to the trees. Some authorities state that fifteen or twenty years are necessary to bring them into full bearing from the time the nut is planted. This is a mistake, as trees that have been well cared for should bear a bushel of nuts in ten years, and the quantity will increase rapidly each year after that time.

Some persons may enjoy raising these trees from seed. To be sure, it is rather a slow process, but it is interesting work. When planting the nuts, if they have thin shells be perfectly sure that they have not dried out at all. The best plan is to get them as soon as they ripen and plant them at once. When this is not possible, keep them in moist sand or in sawdust until they can be started. Butternuts, walnuts, hickory nuts and filberts, being hard shelled, will keep in growing condition much longer, but should be planted in the fall, as they germinate better when allowed to freeze, as that cracks the shell.

The fall planting is nature's own plan, and the nearer we follow her ways the better results we may expect. Another thing, do not plant the nuts deep. Nature drops them on the surface and gives them a thick covering of leaves, in which the dirt catches as it blows about; then the snow covers all and helps the leaves to decay and form a covering of leaf mold for the tree to grow in.—Exchange.

ROMANCE OF A NAME.

Hugh Williams and a Remarkable Series of Coincidences.

Names have figured frequently in coincidences, one of the most remarkable cases being that recorded of a series of men named Hugh Williams, whose escapes from shipwreck are recorded by an English chronicler.

On Dec. 5, 1664, according to this authority, the English ship Menia was crossing the strait of Dover and capsized in a gale. Of the eighty-one passengers on board one was saved. His name was Hugh Williams.

On the same day of the same month in 1785 a pleasure boat was wrecked on the Isle of Man. There were sixty persons on the boat, among them one Hugh Williams and his family. Of the threescore none but old Hugh Williams survived the shock.

On Aug. 5, 1820, a picnicking party on the Thames was run down by a coal barge. There were twenty-five of the picnickers, mostly children under twelve years of age. Little Hugh Williams, a visitor from Liverpool, only five years old, was the only one who was saved.

Now comes the most singular part of this singular story. On Aug. 19, 1889, a coal laden craft, with nine men, foundered in the North sea. Two of the men, each of whom was named Hugh Williams, an uncle and nephew, were rescued by some fishermen and were the only men of the crew who lived to tell of the calamity.—Scrap Book.

Cats and Fish.

A sea captain tells of his sailing in southern seas where flying fish abound. They would sometimes in their flight in the night come aboard the ship and drop on the deck. He had three cats that, though they were lying asleep below, would hear the sound whenever a fish struck the deck and would rush up to get it. They distinguish this from all other sounds. The crew tried to imitate it in various ways, but could not deceive the cats.

Insulted Him.

Ferry—What was the matter with Johnson last night that he should get insulted when I asked him to drink? He is not a total abstainer, is he? Wallace—It was the way you put the question. He is subject to attacks of kleptomania, and when you asked him if he "wasn't beginning to feel like taking something" he got hurt, very naturally.

NAMES OF FLOWERS.

Where Some of Them Come From and What They Mean.

It is interesting to know how certain flowers received their names. Many were named after people. For instance, the fuchsias were so called because they were discovered by Leonard Fuchs. Dahlias were named for Andre Dahl, who first brought them from Peru. The camellia received its name from a missionary named Kamel, who carried specimens of this flower from Japan to France. The magnolia was named in honor of Magnol de Montpelier. Other flower names are descriptive. Lady's slipper resembles a tiny slipper. The blossoms of lady's tresses are twisted like a braid of hair. The flowers of the foxglove are like the fingers of a glove. The name foxglove is said to be a corruption of "folk's glove" or "fairy's glove." Aster means star and received its name from the starlike rays of this flower. Daisy is really "day's eye." Dandelion means lion's tooth. Do you think the name is appropriate for this notched, rather jagged flower?

Anemone means "wind flower." The anemone is so delicately poised that it trembles in the slightest breeze. Dutchman's breeches resemble nothing so much as a baggy pair of trousers. Morning glories bloom only in the morning and four o'clocks not until that hour in the afternoon.—St. Louis Republic.

HOISTING DEVICES.

Machinery That Was Used In Building the Pyramids.

Hoisting machines were used in both Assyria and Egypt 6,000 or more years ago. In order to hoist the great stones of the pyramids some form of derrick was employed. Probably the first construction was that which is now known to mechanics as the shear legs. This is made of two great timbers tied together in the form of a capital A, the two ends resting on the ground and a rope being run over and attached at the top.

With one of these the pyramid builders could have raised large stones step by step, which was doubtless their method. We can imagine we see the great A frame leaning over an incline of perhaps fifty degrees with a block of stone tied on. Then a great crowd of men get hold of the rope on the opposite side, perhaps assisted by some draft oxen, and all strain and pull until the A frame stands erect and the stone is swung up into the air, where it can be pushed into the desired place.

Such a contrivance could be used to lift stones six or eight feet, which was sufficient for the construction of the first pyramid. Doubtless better hoisting devices were constructed as more pyramids were built.—Circle Magazine.

MARRED THE MUSIC.

Secret of the Poor Performance at a High Class Concert.

"Musical critics sometimes complain of what they call the roughness of an orchestral performance without always considering that the cause may be found in the instruments rather than in the performers." At least so says the leader of a St. Louis organization.

"There was some criticism of the orchestral numbers given at a concert last winter, but I know that the fault was not that of the men so much as of the instruments. Almost every player has at least two, sometimes three or four, instruments, and one at least is the best he can afford to buy. This is especially true in the case of the strings, for accidents will happen, and to be prepared against them string players have usually two or three violins—one for ordinary work, like teaching, dancing and rehearsing, and a superior violin for solos and concerts.

"Now, it happened that on the evening of the concert in question the weather was atrocious. It was snowing and sleeting and raining by turns. A genuine violinist thinks about as much of his best fiddle as he does of his youngest child, and so on the concert night the string player thought to himself that he wouldn't take out his good fiddle. It might get damp or he might fall off the street car with it and smash it to splinters, so he resolved to leave it at home and take his everyday fiddle, thinking that in the ensemble nobody but himself would notice the difference.

"But every other string player thought the same thing, so most of them left their best violins at home and brought their practice instruments. The public didn't notice the difference, but the players and the leader did, and in an audience there are always people with almost miraculous ears for variations of tone, and some of these did the complaining."—St. Louis Globe-Democrat.
